UPOZORENJE - upozorenje - teren na kojem je ovo snimano bio je poprište ratnih zbivanja , iako je razminiran izvjestan rizik je itekako prisutan i ne bi preporučio odlazak na ovu poziciju.

The year is 1991. Specifically, the December of the same year, Dubrovnik is under heavy siege.

Serbian-Montenegrin forces are advancing to the gates of Pelješac.

The defense of Pelješac is in total disarray.

Help is arriving from Split...First Naval Infantry Unit of the Croatian Navy.

On December 18th, one defender of Peljesac was killed on Hill 158.

The day after, one squad of the 2nd platoon of the First Naval Infantry Unit took the position on the same hill.

Not long time after they arrived at the height, one of them was killed by a shot from the rocket launcher.

In January of this year I made a video WAR RELICS PART 5//Peljesac 1991/92 and one person appeared in the comments who knew a little bit too much about this place...he wanted to give him my contact number....

This video is the result :)
